## LETTER OF RECOMMENDATION

This is with great pleasure that I am writing this letter of recommendation for Laura Catering.

The American Embassy Recreational Association (AERA) has been working with Laura for two years as a contractor. Their team of professionals provides a very good service to the Embassy community and guests. The services include, but are not limited to breakfasts, lunches, oversees and European food preparing, as well as formal catering services for Embassy wide events. They prepare all kind of American food with locally purchased products, which makes the task very difficult, but I can assure you they are doing a great job.

Laura's staff has become part of the Embassy staff – their behavior and attitude are so friendly, everyone is so nice to work with.

Tzveta Kanazirska

AERA Manager
